Ensure your company is represented alongside your competitors

EduWeek is the only all-encompassing education event in sub-Saharan Africa which brings together the full ecosystem of educational products & solutions. Our visitors praise this format as it means they can see, touch, evaluate and purchase for their institution in just two days.

EduWeek is fast becoming the only event many decision makers will attend to carefully choose where their limited budget is spent.

If your company is a product or solution provider within any of these sectors then EduWeek is an essential event for your annual marketing strategy.

The setup of EduWeek is excellent; I first attended in 2013 and have been back every year since. It is the only show that provides variety across all procurement areas, so I can make an informed decision of where to invest my budget for the next year
